### **SECOND QUARTER HIGHLIGHTS**

Ontario's **real Gross Domestic Product** grew 0.3% in the second (April to June) quarter of

2008, rebounding from a 0.4% first quarter decline. Canadian real GDP edged up 0.1% in the second quarter, following a 0.2% decline in the first quarter. In the U.S., real GDP grew 0.8%, following a 0.2% first quarter advance.

The rebound in constant dollar GDP reflected strong inventory accumulation combined with solid gains in household and business spending. Final domestic demand increased 1.2%, rebounding from a flat 0.1% first quarter gain. Net trade was a major

drag on growth as real exports declined sharply while imports rose modestly.

- The largest contributor to real GDP growth in the second quarter was a build-up in **inventories**. Ontario businesses added \$4.8 billion (\$2002) to inventories, after a \$781 million (\$2002) decline in inventory stocks in the first quarter.
- Household spending increased at a moderate 0.6% pace, matching its first quarter gain. A 2.6% jump in spending on semi-durable goods was an important contributor to overall personal expenditure growth in the second quarter.
- Ontario's **residential construction investment** increased 2.9%, reversing a 2.9% decline in the first quarter.
- Capital spending by Ontario businesses increased 0.9% in the second quarter, partly rebounding from a 2.7% first quarter decrease. The gain reflected a 2.1% increase in **machinery and equipment spending**, while **non-residential construction** remained weak, dropping 3.5% after a 1.6% first quarter decline.
- Exports fell 2.5% in the second quarter, the fifth consecutive quarterly decline. Supported by healthy growth in domestic demand, **imports** grew 0.6%, partly recovering from a 5.2% first quarter decrease. With imports rising and exports continuing to fall, Ontario's **net trade balance** deteriorated by \$10.1 billion (\$2002) in the second quarter.
- In current dollars, GDP grew 0.7% in the second quarter, accelerating from a 0.2% pace in the

first quarter. Economy-wide prices, as measured by the **GDP implicit price index**, increased by 0.4%, following a 0.6% advance in the first quarter.

On **an industry basis**, real output advanced 0.4% in the second quarter, rebounding from a 0.6% first quarter decline. Service sector activity increased 0.8%, while overall output by the goods-producing sector declined by 0.5%. Sectors posting solid second quarter growth include financial services (+0.5%), educational services (+1.5%), construction (+1.2%) and retail trade (+1.0%). Manufacturing output continued to decline, falling 1.2% in the quarter.

### ONTARIO ECONOMIC ACCOUNTS: HIGHLIGHTS

(% change from previous period)

	2006	2007	2007q3	2007q4	2008q1	2008q2
Real GDP (Chained \$ 2002)	2.5	2.2	0.2	0.1	-0.4	0.3
(annualized rate)			0.7	0.2	-1.6	1.4
Personal spending	3.4	3.6	1.0	2.3	0.6	0.6
Government spending	3.8	2.5	1.2	0.8	0.8	2.4
Residential construction	0.8	1.6	1.6	1.2	-2.9	2.9
Non-residential construction	6.5	5.6	3.0	1.2	-1.6	-3.5

Implicit price index, GDP	1.8	2.1	0.1	0.8	0.6	0.4

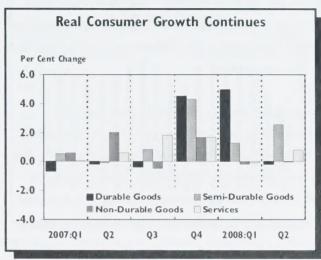

### **DEMAND AND INCOMES**

### CONSUMER SPENDING GROWTH REMAINS MODERATE

**Real consumer spending** grew a moderate 0.6% in the second quarter of 2008, matching its first quarter gain.

Household spending growth was supported by solid gains in spending on **semi-durable goods**, up by a strong 2.6%, following a 1.3% first quarter advance. Spending on clothing remained robust, increasing 3.1%, after growing 1.8% in the first quarter.

Spending on **services** increased 0.8%, reflecting stronger household spending on financial and legal services, and restaurants and accommodation services.

Moderating these second quarter gains was a decline in spending on **durable goods**. In constant dollar terms, durable spending edged down 0.2%, following increases averaging 4.8% in the previous two quarters. The weakness in durable spending reflects a 1.2% drop in motor vehicle purchases following substantial increases in the previous two quarters.

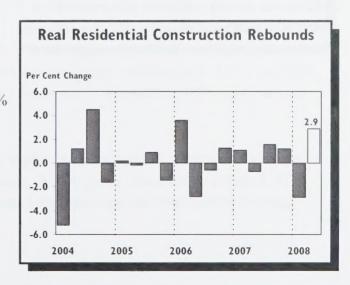

Spending on **non-durable goods** remained sluggish with no growth in the second quarter, following a 0.2% dip in the first quarter. Households reduced real spending on food and energy, as prices for these goods increased strongly in the quarter.

In current dollars, **personal disposable income** rose 1.2%, after increasing 2.1% in the first quarter. Labour income, the largest component of household income, grew by 1.1%, as employment rose by 0.4% or 25,900 jobs in the second quarter.

## RESIDENTIAL CONSTRUCTION STRENGTHENS

### Real residential construction investment

increased by 2.9% in the quarter, reversing the 2.9% first quarter decline. Both renovation activity and real estate transfer costs rebounded strongly in the quarter following first quarter declines. New housing construction rose modestly in the second quarter.

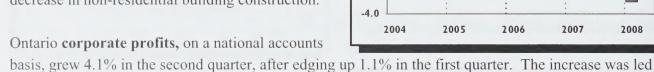

### **BUSINESS INVESTMENT REBOUNDS**

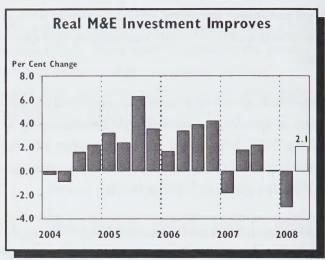

Real business investment in plant and equipment increased 0.9% in the second quarter following a sharp

2.7% first quarter decline. The gain reflected a pick-up in **machinery and equipment spending** which increased 2.1%, following a 3.0% decrease in the first quarter.

In contrast, **non-residential construction** continued to weaken, falling 3.5% in the second quarter. The decline, which followed a 1.6% drop in the first quarter, reflected a significant 3.2% decrease in non-residential building construction.

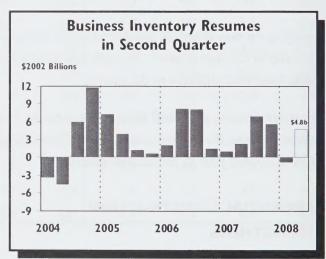

by stronger earnings by Ontario retailers and wholesalers.

### INVENTORY ACCUMULATION RESUMES

Ontario businesses added \$4.8 billion (\$2002) to inventories in the second quarter, after drawing down

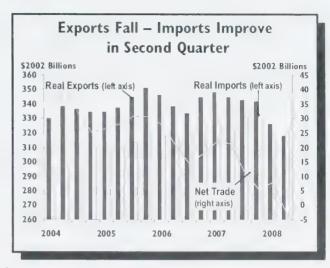

stocks by \$781 million (\$2002) in the first quarter. Except for the first quarter of this year, businesses have been accumulating inventories steadily over the past four years. The increase in inventories was the largest contributor to overall growth in GDP. The second quarter accumulation was concentrated in the manufacturing sector, most notably in primary metals (steel) and refined petroleum products. This build-up was partially offset by motor vehicle dealers who continued reducing unsold inventories.

### EXPORTS CONTINUE TO FALL WHILE IMPORTS RISE

Real exports fell 2.5% in the second quarter, the fifth consecutive quarterly decline. Exports of automotive products along with machinery and equipment and industrial goods and materials were major areas of weakness, reflecting in large part, weaker U.S. demand.

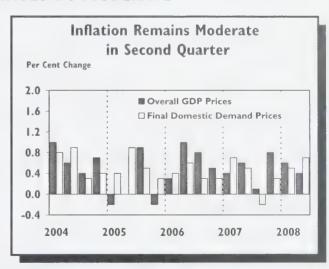

Supported by healthy growth in domestic demand, **real imports** grew 0.6% in the second quarter, partly recovering from a 5.2% first quarter decline. Import gains were concentrated in automotive products, consumer goods and machinery and equipment, all areas which posted steep declines in the previous quarter.

With imports rising and exports continuing to fall, Ontario's **net trade balance** deteriorated by \$10.1 billion to -\$2.2 billion (\$2002) in the second quarter.

### **ECONOMY-WIDE PRICE INFLATION CONTINUES TO MODERATE**

Economy-wide prices, as measured by the GDP implicit price index, rose 0.4% in the second quarter, following a 0.6% first quarter increase. This easing in the pace of GDP inflation was due partly to a continuing moderation in consumer durable and semi-durable prices which fell by 1.4% and 0.4% respectively in the second quarter. Big-ticket items such as furniture and motor vehicles continued to provide substantial downward price pressure. As well, a modest 0.1% rise in residential construction prices contributed to the moderate rate of overall inflation. Higher prices,

most notably for consumer non-durables (+2.1%) and non-residential construction (+2.6%) provided some upward pressure. The implicit price index for final domestic demand rose 0.7% in the second quarter.

In contrast to the modest growth in domestic prices, export and import prices continued to increase sharply, reflecting higher energy and commodity prices. Export prices increased by a steep 3.2%, following a 3.7% first quarter gain. Import prices rose 3.6%, matching their first quarter increase.

### **ONTARIO PRODUCTION BY INDUSTRY**

### **HIGHLIGHTS**

Real output by industry advanced 0.4% in the second quarter, rebounding from a 0.6% first quarter decline. Service sector activity increased 0.8%, while overall output by the goods-producing sector declined by 0.5%.

Sectors posting solid second quarter growth include financial services (+0.5%), educational services (+1.5%), construction (+1.2%) and retail trade (+1.0%). Production was down 1.2% in the manufacturing sector, after declining 4.3% in the first quarter.

### ONTARIO OUTPUT BY INDUSTRY

(% change from previous period, chained \$2002)

	2006	2007	2007q3	2007q4	2007q1	2008q2
Goods Sector	-1.8	-1.0	0.1	-1.0	-3.2	-0.5
Primary Industries	-0.3	-5.3	-3.2	-4.7	-2.0	0.5
Utilities	-2.7	2.7	0.9	3.0	-0.2	-0.4
Construction	5.6	2.5	2.2	0.9	-0.9	1.2
Manufacturing	-3.9	-2.2	-0.7	-2.2	-4.3	-1.2
Of which: Auto Industry	-3.9	-3.0	2.1	-6.1	-10.2	-2.5
Service Sector	4.0	3.4	1.1	1.1	0.3	0.8
Wholesale Trade	7.0	3.2	1.4	1.7	-2.1	0.7
Retail Trade	4.2	4.3	0.0	0.6	1.7	1.0
Transportation and Warehousing	1.9	1.0	1.4	-0.4	0.1	1.0
Information and Cultural Industries	3.1	2.6	0.3	0.8	-0.2	-0.1
Finance, Insurance, Real Estate	4.1	4.8	0.8	0.5	0.3	0.5
Public Administration	4.0	1.5	0.7	0.4	1.2	1.3
Ontario Output at Basic Prices	2.3	2.2	0.4	0.1	-0.6	0.4
(annualized rates)			1.7	0.5	-2.4	1.7

**Note**: Output by industry is defined as real gross domestic product (GDP) at basic prices in chained 2002 dollars. GDP at basic prices includes taxes net of subsidies on labour and capital inputs, but excludes taxes on final products.

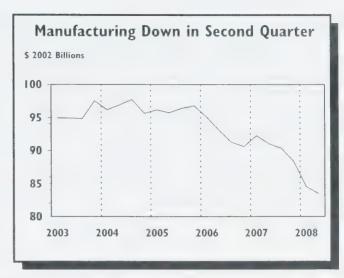

### MANUFACTURING OUTPUT LOWER

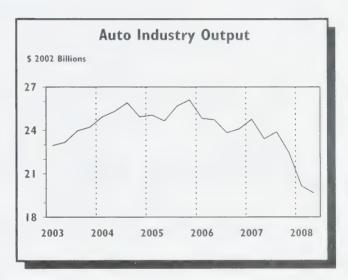

The manufacturing sector's output fell 1.2% in the second quarter, the fifth consecutive quarterly decline. Seven of the eleven manufacturing industries included in the Ontario Economic Accounts, representing two-thirds of the sector's production, reduced their output in the second quarter of 2008.

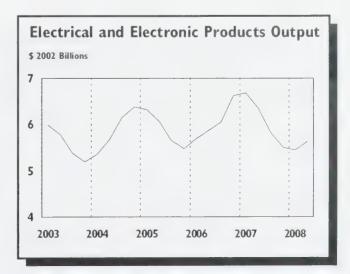

The transportation equipment sector recorded a 3.3% decline in production and represented the most significant drag on overall manufacturing output. The second quarter decline was less pronounced than the 9.6% drop in the first quarter when labour disputes at some U.S. auto part plants contributed to the overall weakness. Within the transportation equipment sector, auto production fell 2.5% as a decline in auto parts manufacturing more than outweighed an increase in motor vehicle assembly.

Output reductions were also significant in the paper product and printing (-3.0%), wood product and furniture (-3.0%) and food, beverage and tobacco product (-1.0%) industries.

Electrical and electronic products output increased 3.5% in the quarter, following four consecutive declines. Machinery manufacturing (+0.6%) also increased in the second quarter.

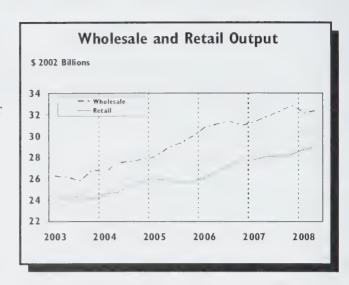

### WHOLESALE AND RETAIL

Wholesale trade output increased 0.7%, partially recovering from a 2.1% decline in the first quarter. Increased activity was recorded across most trade groups, with solid sales gains by wholesalers of motor vehicles, food products, computers and other electronic equipment and machinery.

Retail trade activity advanced 1.0%, compared to a 1.7% gain in the first quarter.

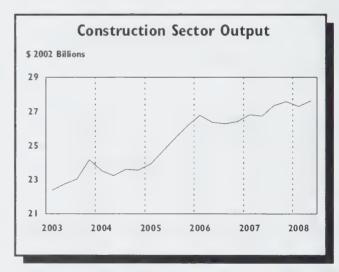

### RESOURCES, UTILITIES AND CONSTRUCTION

Construction sector output increased 1.2%, following a 0.9% decline in the first quarter. Residential construction activity was up strongly (+3.1%) while non-residential construction output remained unchanged.

Utilities output decreased 0.4%, with a decline in natural gas and water distribution production (-4.5%) more than off-setting an increase in electric power output (+0.8%).

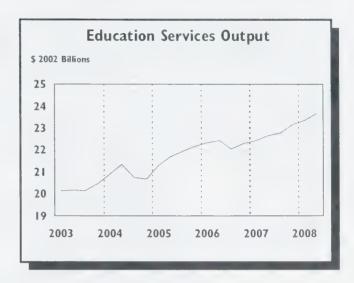

Output in the agriculture and forestry sector edged up 0.3%, following five consecutive quarterly declines.

**Note**: Construction industry output is measured by the <u>value added</u> of the industry. This is a different statistical measure than the construction <u>investment spending</u> estimates included as part of expenditure-based Gross Domestic Product.

### **EDUCATION AND HEALTH CARE**

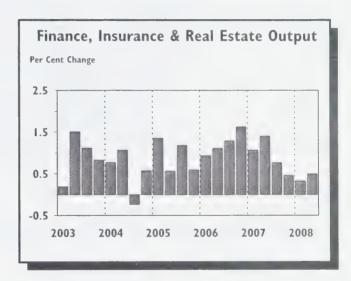

Production in the health care and social services sector advanced by a steady 0.8%, building on the 0.9% increase in the first quarter. Education services output rose 1.5%, increasing for the seventh consecutive quarter.

### FINANCE, INSURANCE AND REAL ESTATE

Output by the finance, insurance and real estate sector advanced 0.5% in the second quarter, accelerating from a 0.3% first quarter increase. Gains in several industries including banking (+1.0%) more than offset declines in the other financial services category (-0.4%), which includes activities of real estate agents and brokers.

Growth in financial sector output continued to be the largest contributor to overall growth for the quarter.

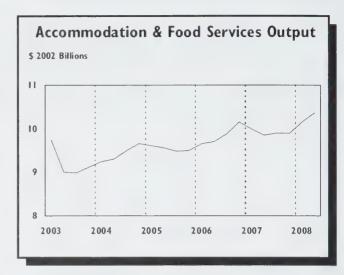

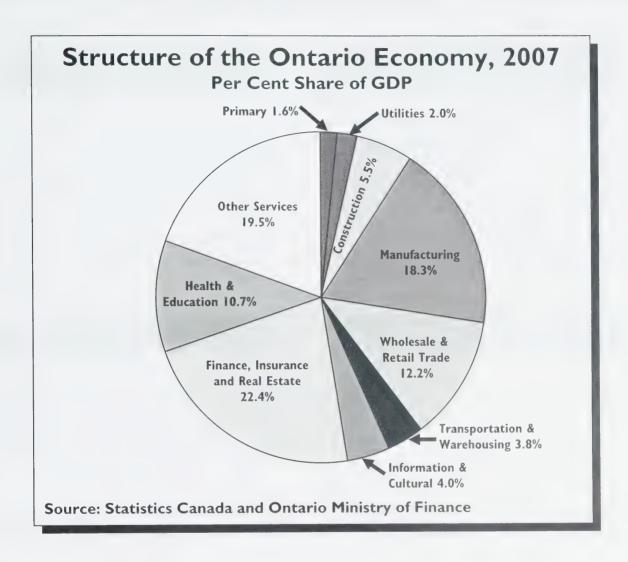

### **OTHER SERVICE SECTOR INDUSTRIES**

Accommodation and food services output jumped 2.1%, following a strong 2.5% gain in the first quarter.

In the information and culture sector (which includes telecommunications), production edged down 0.1%, following a similar 0.2% decline in the first quarter.

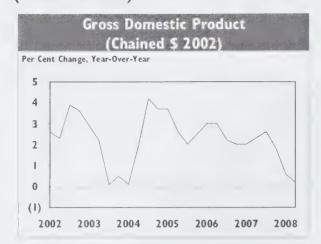

Output of professional and administrative services rose 0.5% in the second quarter and the industry added 3,300 net new jobs.
